Eye-Sight V5.1.1 upgrade:

1) Update the FW version via the IP manager Tool selecting "software upgrade" using the file with "tar" extension.
2) Update the Kernel version via the IP manager Tool selecting "kernel upgrade" using the file with "bin" extension.

- The above two updates will keep all camera settings the same.

Please feel free to contact our technical team with any question, concern or technical feedback.

Best Regards,
Provision-ISR Technical Department.
