

FIRMWARE ANNOUNCEMENT

June 2025

SUBJECT

FW: 5.1.2.0.63703_20250604 Solar Camera

Solar IPC v5.1.2

Supported Models

SOL1-240ADSRN-36 & CEL1-240ADSRN-36

LIST OF IMPROVEMENTS:

1) IMPROVED: INCREASED CONCURANT CONNECTIONS

The number of connections to the HTTP and Data port was doubled to allow simultaneous connections of more devices and management platforms.

Increased simultaneous streaming connections to 6 (from current 3)

Increased Port 9008 maximum concurrent connections to 10 sessions (from current 5)

2) OPTIMIZED BUILT-IN APN LISTS FOR MULTIPLE CELLULAR PROVIDERS

More cellular providers are supported for automatic APN configuration. This saves the need for setting the APN manually

3) BUG FIXES

- Optimized connection times and stability with Provision Cam2 Mobile app
- Fixed time bar jumping during playback.
