18/10/2020

Dear Partner,

We are happy to announce FW v1.4.4 for NVR models with Ossia OS.

<u>Ossia v1.4.4 FW version release info</u>

1) Ability to perform initial start-up configuration (Wizard) via Web-Client
2) Cloud Update via Web / P2P / Mobile App
3) Simpler Main Menu for more intuitive navigation
4) DDA Analytic Improvement for Search and Backup
5) New Playback interface with ability to distinguish between special analytics.
6) New Smart Search interface
7) Full LPR Support for Provision-ISR LPR Cameras
8) Minor GUI Improvements and Stability enhancement.

Please update to v1.4.4 from the latest FW available for your device.

All settings will be saved after the update.

Best Regards,
Provision-ISR Technical team
